
a
R^2_{OOS} = -0.17 [-1.03, -0.02]
Spearman ρ = 0.09 (p = 0.16)
Geographic testing group mean
Observed residual correlation r
Predicted residual correlation r
Perfect prediction (1:1)
b
ρ = -0.13 [-0.25, -0.01]
Residual correlation r
Depth below land surface (m)
c
ρ = -0.05 [-0.18, +0.07]
Residual correlation r
Prior bank distance (m)
d
River width
Reach slope
Prior width variance
Spearman ρ (95% CI)
